Speech Topic: My Pandemic Experience

The pandemic Covid-19 changed a lot of things in everyone's life. Please feel free to share your thoughts, emotions and your experiences. You can take it in any direction you like and share your own viewpoint along with making a presentation which is interesting for your audience.

You can make it totally funny how things changed at home, at the workplace or working from home, dress-up, schooling, diet and exercise, zooming, masking etc. Be creative with word selection and narration.

The other side was emotional and personal. The losses we suffered as individuals and as humanity. You may also give some statistics to impress the audience as to how the progress of humanity was either enhanced or curtailed by the pandemic and what kind of greed or amazing acts of kindness and generosity came out from individuals and institutions.

You can also create an inspirational and motivational speech and present a positive and optimistic outlook from your pandemic experiences.

Speech Time — 3 to 4 minutes (Must speak for at least 3 minutes to qualify and will be disqualified at 4 minutes and 31 seconds)
